

KENYA KIDS CAN Because of You

Kenya Kids Can serves children who are impoverished, not neglected. Facing challenges, but capable. And we believe in them.

But they do need help. That's why we partner with their communities to help them reach their potential.

SCHOOL LUNCH PROGRAM

The communities we serve are passionate about enabling their children to learn and grow. That's why they build kitchens, hire cooks, secure firewood, and find water needed for cooking. The children bring bowls to receive food, and in remote areas they carry sticks to school for the fires that cook their lunches.

The one thing communities can't afford to do is purchase the corn and beans that make up the simple meal of githeri. Kenya Kids Can forms the link between you and these communities to provide food for lunch.

**WE CAN'T OVERSTATE
THE IMPORTANCE OF
FOOD IN THE
LIFE OF A CHILD.**

Not only does it literally keep them warm, it gives them needed energy to learn. And when they learn, they're equipped as future leaders.

COMPUTER PROGRAM

It's hard to imagine a leader who doesn't know what a computer can do, let alone how to walk into an internet cafe and access the knowledge at the fingertips of the rest of the world.

But computer training is also a different type of education. In schools where resources are virtually non-existent, our computer labs provide hands-on learning where students develop problem solving skills.

Please join us in partnering with these communities. A can of change from you can bring change to the lives of Kenyan children.

For more information, visit us online at KenyaKidsCan.org

Your donations are fully tax deductible. Kenya Kids Can is a project under the umbrella of Africa Inland Mission.
