KENYA KIDS CAN Because of You

Kenya Kids Can serves vulnerable children by partnering with their schools to provide daily lunches, computer lessons, and after-school Bible programs.

This partnership helps our students thrive and go on to uplift their famililes, communities, and nation.

SCHOOL LUNCH PROGRAM

We feed more than 25,000 students a hot lunch of githeri (maize and beans) every school day.

The schools we serve are passionate about enabling students to learn and grow. That's why they build kitchens, hire cooks, and secure the firewood and water needed for cooking. The one thing they can't afford to do is purchase the corn and beans that comprise these meals. Kenya Kids Can forms the link between you and these communities to provide food for lunch.

WE CAN'T OVERSTATE
THE IMPORTANCE OF FOOD
IN THE LIFE OF A CHILD.

School lunches draw our students to school and give them the energy to learn. As our students complete more years of schooling, their communities grow stronger.

COMPUTER PROGRAM

We build and outfit computer classrooms to teach foundational technology skills.

It's hard to imagine an education without technology, but that's what most students face in rural Kenya. In schools that may not have power, running water, libraries, or a host of other essentials, children grow up in a world that's passing them by.

Our KKC teachers help students grow adept at operating a computer, equipping them for further schooling and an array of future professions.

BIBLE PROGRAM

We lead after-school Bible programs to teach our students about God and disciple them in their faith.

Our KKC teachers lead weekly Bible programs centering on lively worship, age-group Bible lessons, memorizing passages of scripture, and praying together.

We care deeply about giving students the opportunity to authentically engage in God's word and grow in their faith as they're mentored by our teachers. We pray that our students will cultivate relationships with the Lord that lead to generations of faith-filled homes.

We'd love to have you partner with us!
